EDUCATION

B.E in Computer Engineering **A.P. Shah Institute of Technology**

University of Mumbai

Jun 2019

XII (Senior Secondary) **Science**

Vidyabhushan College Of Science
Maharashtra State Board, Mumbai

Jun 2015

Secondary School Certificate **Shailendra Education Society**

Maharashtra State Board, Mumbai

Jun 2013

SKILLS

Languages

Python, Java, JavaScript, C#, Ruby,
HTML/CSS, C, Clojure, C++, PHP &
MySQL.

Framework/Environments

PyTorch, TensorFlow, Nvidia CUDA,
Keras, NodeJS, Matlab, Android, An-
gularJS, Deeplearning4j, Rails,
Redux.

AWARDS

Embedded Design

Awarded By

- **an online contest conducted on 18th August 2017**
- **TEXAS INSTRUMENTS INDIA**

- Website

gauravhulmukh.github.io

- Github

github.com/gauravhulmukh

- LinkedIn

linkedin.com/in/gaurav-hulmukh-932648166

TRAININGS

Elastic Framework Workshop

- Learn Elasticsearch, Logstash, Kibana Also learn complete data visualisation and analysis in Kibana.

Main purpose is to represent data in understandable form.

CERTIFICATION

Machine Learning Engineer Nanodegree **Amazon Web Services, Kaggle Certified - Udacity**

- Mastered core fundamentals of Supervised Learning, Un-Supervised, Deep and Reinforcement Learning.

- Developed models based on Nvidia CUDA, Keras Tensorflow, Caffe, Pytorch as project frameworks.

Android Developer Nanodegree **Google Certified - Udacity**

- Extensively covers Advanced Android Architecture components, principles. Developed Apps using core API features,

Building Real World Native Cross-Platform App

- ISGE Solutions Private Limited (Mumbai)
Created Apps using .NET framework, Xamarin platform

Full stack web development certified **-freecodecamp**

- Web Design, Algorithms & Data Structures, Front End Libraries, Data Visualization, APIs, Quality Assurance.

PROJECTS

Chatbot development for Regional languages using Artificial Intelligence

- NLP & Digflow is used processing input given by user.
- Tensorflow And TFLearn is used for Machine training And Dataflow Programming

Configuration DNS Name Server

- Identify the IP Address or website from Domain Name

KeyLogger Keyboard

- Created a KeyLogger Android Application For Network Programming Laboratory.

Online Movie ticket booking system

- Created Website in Web Technologies Laboratory.
